

## How Casino Night Works

CCRA's Casino Night works like this. Each attendee will receive an initial stake of chips based on her/his ticket price. Additional chips may be purchased during the event. The chips will be used at each casino table to place bets and (hopefully) win additional chips. At the end of the evening, each person exchanges her/his chips for raffle tickets that can be placed in containers corresponding to the prizes in which one is interested (e.g. big screen TV). A winning ticket is drawn for each prize at the end of the evening. Good Luck!

### Ticket Categories

Category	Price	Tickets	Chips
___ All In	\$500	2	\$1,000*
___ Banker	\$300	2	\$600*
